

10. (Amended) A method for manufacturing a magnetic disc comprising:  
overlapping a master disc according to claim 1 on a magnetic disc, applying a  
magnetic field while generating airflow in a space formed by the magnetic disc  
and the concave portion of the master disc by exhausting from a central side of the  
magnetic disc and performing a preformat recording of a magnetized pattern  
corresponding to the array of the ferromagnetic film of the master disc in the  
magnetic disc.

REMARKS

The above preliminary amendment is made to remove multiple dependencies from  
claim 10.

Applicants respectfully request that the preliminary amendment described herein  
be entered into the record prior to calculation of the filing fee and prior to examination and  
consideration of the above-identified application.

If a telephone conference would be helpful in resolving any issues concerning this  
communication, please contact Applicants' primary attorney-of record, Douglas P. Mueller (Reg.  
No. 30,300), at (612) 371.5237.

Respectfully submitted,
